

Wine Dinner Friday, November 2, 2012

Gallo wines used to be equated with inexpensive, jug wines. That has long changed. Over the last many years, Gallo has acquired some premier properties and wineries. Those names were added to the Gallo family. In the meantime, the Gallo brand itself has developed its own signature series of premium wines. This dinner is dedicated to the newest acquisitions.

The dinner will be hosted by Christina Pelachyk, On-Premise Field Marketing Manager, Northern Ohio. Originally from Detroit, Christina began working with Gallo's portfolio in 2006, first working in Detroit, then New England and now Ohio

About mid-summer we will get the latest and greatest acquisitions for this dinner. Be assured that there will be six wines that will inspire five courses for the dinner.
